

BIOLOGY EXAM

Date : Example
Time : 13:30 to 16:30
Number of questions : 35 of which
16 multiple-choice and
19 open questions

Write your name on every sheet you hand in.
The questions must be handed in together with the answers.

The answers must be written with a pen; drawings and graphs can also be made with a pencil.

If an open question asks you to give an explanation or calculation, you will not receive any points if your answer does not include an actual explanation or calculation.

Do not give more answers (reasons, examples, etc.) than asked for in the question. If, for instance, you are asked to provide two reasons and you give more than two reasons, only the first two will be marked.

It is permitted to use BINAS, 5th edition or later, or BioData, 2nd edition.

The use of a normal calculator is permitted; graphic calculators are **not** permitted.

The maximum number of points for this exam is 69.
The marks are calculated as follows: $\text{mark} = \text{score}/69 \times 9 + 1$

The marking and the communication of the results will be handled entirely through CCVX . You will receive the result of your exam via CCVX.
For further proceedings and the progress of the marking procedure, see www.ccvx.nl

REMEMBER TO HAND IN THE QUESTIONS AS WELL!
